SPECIFICATION

SAY 29E

ELECTRIFYING YACHTWORLD: SAY 29E

SAY Carbon Yachts designed the world's fastest production built electric boat: SAY 29E. This model holds the world speed record without competition.

The innovative technology provided by the e-mobility pioneers in Europe – Kreisel Electric – provides the SAY 29E with a cruising range of approx. 30 NM at 22 knots. The charging concept includes a type 2 charging connection with a 22kW on-board charger, which fully recharges the battery in approx. 6 hours.
