Contact us for more information or to arrange your private viewing: **+34 971 338 394**

The SAY 29 RUNABOUT spells pure performance. Its carbon composite hull weighs as little as 380 kilograms. Thanks to its low weight, the boat achieves the breath-taking acceleration of a super sports car even with the 350 HP entry-level engine. With the premium 483HP power plant by Ilmor, the SAY 29 R reaches a top speed of 60 kn (112 km/h).

Every detail is optimised for speed and agility, and all components are perfectly matched. The custom design, the typical 'wave cutter' bow and the side wings of the ultra lightweight carbon hull ensure maximum stability while enabling incredible cornering speeds. The hull guarantees easy handling - even in waves!

Explore Ibiza the *right* way.
